Introduction

Working Group Outputs

By the end of its mandate, the Working Group is to produce:

- a report supported by a small editor group composed of Working Group members on a voluntary basis, selected consultants and EU officials; covering commonly agreed policy guidance, including a set of key challenges and success factors, an inventory of good practices and selected in-depth case studies;
- a communication plan to support dissemination and implementation of the Working Group outputs.

Meeting Outcomes

To make progress towards these outputs, by the end of its seventh meeting the Group will have:

- discussed innovative policy in particular regarding competence-based VET and digital solutions with a particular focus on Finland,
- made further progress on the various tasks related to the VET stocktake study,
- learnt more about artificial intelligence and its potential use in education and training.

DRAFT AGENDA
