Introduction

The Award Nominees Celebration of the previous European Vocational Skills Week is one of the major highlights of the event. It showcases examples of excellence in vocational education and training (VET). A series of awards will be handed over at the fourth European Vocational Skills Week 2019, during the Award Nominees Celebration, by Marianne Thyssen, European Commissioner for Employment, Social Affairs, Skills and Labour Mobility.

As in the previous years, the idea of Awards is not aimed to single out the absolute best compared to any other possible alternative, but rather to provide a good example of what happens across Europe in the field of VET. The award-giving will **highlight** the **good practices in VET in Europe** and beyond.

Also this year, the EVSW **Award Nominees Celebration** motivate/inspire and showcase the **excellence, quality, attractiveness** and **benefits** of initial and continuing Vocational Education and Training.
