## Introduction

### The meeting is organised in the framework of the European level events of the European Vocational Skills Week 2019

The Cedefop Community of learning providers is a joint initiative between Cedefop and the 6 European Associations of VET providers regrouped in VET4EU2 in order to set-up a community of practice among VET-providers, managers, teachers and trainers in particular.

Established by Cedefop in 2017, the Community functions on a voluntary basis and aims to produce concrete quality guidelines for practitioners and formulate suggestions for the EU Commission.

The Community started its work by establishing the following 3 Working Groups (WGs) on: “Learning providers and the challenge of TEL: enhancing teachers’ and trainers’-skills” (WG1); “Learning providers and the EU Mobility: Reinforcing VET attractiveness through staff engagement” (WG2) and “Learning providers and Migration: Empowerment and integration through learning” (WG3). Cedefop will chair, coordinate and draw the conclusions of the event.
