

Poster 2018

The 2018 poster has been created in line with the visual style and incorporates space to add relevant event details. You have the option to print the poster as it is or you can insert the information about your event using the Adobe Acrobat editing function (this might require a subscription to the software).

1 Open up Adobe Acrobat and click on edit PDF in the right panel

2 In the tools panel, click on add text

3 Drag the text box to the size that you require and start typing.

4 You will be able to change the font size and spacing on the left panel.

5 Adding partner logo
First delete the place-holder lines by clicking edit PDF, select the lines, right click and press delete. In the space, add in the partner logo by clicking add image in the top ribbon. Position the logo in the bottom left of the poster.
