**Number of Participants:**

119 – The demand was higher but the slots were limited

**Summary:**

Mrs Szebeni outlined the EU policies on VET and the related implementing actions.

After Dr Grollmann's introduction, Dr Nägele presented the VETNET network, defined VET research and presented the session agenda.

Prof Gessler explained the main topics, keywords and trends of the scientific literature on VET.

Prof Teräs performed a similar analysis focusing on the series "Emerging Issues in Research on Vocational Education & Training".

Dr Moso-Díez focused instead on the status of VET research in Spain and Dr Stępnikowski on VET research in Poland.

The remaining speakers then moderated a number of small group discussions.
